

APPENDIX A: FIDUCIARY SOURCE CITATION LIST

Verified Benchmarks & Regulatory Standards (April 2026)

The following forensic benchmarks provide the fiduciary basis for the \$1,237,320 Gross Recovery model identified in the Blueprint.

01. HUMAN CAPITAL LIABILITIES (Turnover & Vacancy Tax)

- **Specialized Vacancy Benchmarks:** Utah's specialized administrative and professional services sector is currently in a "retention over expansion" phase, with unemployment holding at **3.8%**. [1, 2]
- **Asset Depreciation:** The median liability for a specialized desk unit vacancy in Utah is calculated at **\$100,000 per seat**, accounting for recruitment, training, and lost project velocity. [3, 4]
- **Market Context:** Utah Department of Workforce Services: 2026 Labor Market Reports

02. OPERATIONAL FRICTION (The Bandwidth Leak)

- **Cognitive Bandwidth Leakage:** Knowledge workers currently spend approximately **60% of their workday** on "work about work" (coordination, tool-switching, and searching) rather than skilled output. [5, 6]
- **The Refocus Tax:** Each digital interruption requires a documented **23 minutes and 15 seconds** for a human worker to return to a state of deep, high-velocity focus. [7, 8]
- **Biological OS Baseline:** The "2:12 PM Slump" marks a predictable biological output crash in standard office environments. [9]

03. REGULATORY COMPLIANCE (The Fiduciary Shield)

- **Utah Consumer Privacy Act (UCPA) 2026:** Effective July 1, 2026, data subjects possess the **Right to Correct** inaccurate performance data. Non-compliance carries civil penalties of up to **\$7,500 per violation**. [10, 11]
- **Fiduciary Duty of Prudence:** Under **ERISA Section 404(a)(1)(B)**, fiduciaries must act with the care, skill, and diligence of a "prudent man" familiar with such matters. This includes the selection and monitoring of all human infrastructure. [12, 13]

- **Regulatory Source:** Utah State Legislature: 2026 General Session HB0073 & UCPA Amendments
